SAFETY TRAINING FOR YOUR WORKPLACE

Commonwealth Workplace Health and Safety Representatives Training
or
Introductory Occupational Safety and Health Representatives Training
(WA State Legislation)

These courses are accredited by Comcare and Worksafe WA and designed for Health and Safety Representatives covered by the Commonwealth legislation or WA State legislation.

The course provides Health and Safety Representatives with the knowledge and skills required to effectively perform the role as outlined in legislation. Subject matter such as hazard identification, workplace inspections and investigations, communication, conflict resolution and the issuing of Provisional Improvement Notices (PINS) are incorporated.

Duration: 4 days

Maintain Workplace Safety for Managers & Supervisors
(Commonwealth Legislation & WA State Legislation)

This course is concerned with individuals who have supervisory responsibilities to implement and monitor the organisation's occupational health and safety policies, procedures and programs to meet legislative requirements. Participants will cover subject matter such as consultation in WHS, identifying hazards, assessing risk and controlling risks in the workplace.

Duration: 2 days

Training For Safety Committee Members
(Commonwealth Legislation & WA State Legislation)

Developed to assist Health and Safety Committee Members to contribute effectively to the management of safety in the workplace.

This course provides participants with an understanding of the benefits of a Health and Safety Committee which operates in accordance with the provisions of the Act and recognized principles of a Safety Committee.

This course can be particularly effective if conducted on site with your entire Health and Safety Committee participating together.

Duration: 2 days
